SUMMARY

Frontend Developer with 2+ years of experience building responsive, high-performance web applications. Skilled in writing clean, reusable, and maintainable code that improves performance and user experience. Experienced in turning UI/UX designs into accessible, cross-browser interfaces and integrating them with REST APIs.

TECHNICAL SKILLS

Languages: HTML5, CSS3, JavaScript (ES6+), TypeScript, SQL

Frameworks and Libraries: React JS, Next JS, Tailwind CSS, Bootstrap, Shadcn UI, SASS, Material UI

State Management: Redux Toolkit, Zustand, React Query, Context API

Backend: Node.js, Express JS, Prisma ORM, JWT Authentication, Zod, Multer, Cloudinary

Databases: PostgreSQL, MongoDB

APIs and Real-Time: REST APIs, Axios, Socket.IO, WebSockets

Concepts: Responsive Design, RTL/LTR Localization, i18n, Performance Optimization, Code Splitting, Cross-Browser Compatibility, Accessibility (WCAG)

Tools: Git, GitHub, Postman, Figma, VS Code

WORK EXPERIENCE

Frontend Developer Jun 2026 – Present

MadarPro – On site

- Developed and maintained modern, responsive web applications with a strong focus on usability, performance, and clean UI implementation.
- Converted UI/UX designs into high-quality, pixel-perfect interfaces while ensuring accessibility and cross-browser compatibility.
- Implemented reusable and scalable frontend components to improve development speed and long-term maintainability.
- Integrated frontend applications with backend services and RESTful APIs, ensuring accurate data handling and smooth user interactions.
- Optimized application performance through efficient state management, code splitting, and modern frontend best practices.
- Collaborated with cross-functional teams to deliver features aligned with business requirements and project timelines.

Frontend Developer Nov 2025 – May 2026

Adex – Jordan, Remote

- Built and maintained data-driven dashboards focused on scalability, performance, and real-time data visualization using modern frontend technologies.
- Optimized application performance to achieve fast load times, smooth user interactions, and efficient rendering for complex and high-volume UI components.
- Collaborated closely with backend developers and designers to integrate APIs and deliver seamless, responsive, and user-friendly experiences across different devices and browsers.
- Developed reusable and maintainable UI components following clean code practices and modern frontend architecture principles.

- Enhanced overall user experience by applying modern frontend standards and best practices to create more accessible and intuitive interfaces.

Frontend Developer Jul 2024 – Oct 2025
Jaadara – On site

- Built and designed the user interface of websites and web applications.
- Translated design mockups into interactive and responsive web pages.
- Optimized performance to ensure fast load times and smooth interactions.
- Worked closely with backend developers to integrate APIs and ensure seamless data flow.
- Ensured cross-browser compatibility and mobile responsiveness.
- Created an engaging, user-friendly experience that meets modern web standards.

PROJECTS

- **Liqaa** – Frontend of an Arabic matrimonial platform with smart matching and verified profiles. Built user registration, profile browsing, and secure chat. https://leqaa.net
- **Retreat KSA** – Saudi real estate platform for monthly furnished rentals with property search, owner-direct contact, landlord property management, and a bilingual (Arabic/English) interface. retreatksa.com
- **Adala AI** – Saudi AI-powered legal consultation platform offering instant legal advice, document analysis, and an updated legal library for individuals, businesses, and law firms. smartsearchai.sa
- **PMC (Parts More)** – Frontend of a Saudi platform for importing and selling car spare parts wholesale and retail. Built service request forms, branch listings, and a bilingual interface. pmc.com.sa
- **Nile Gardens** – E-commerce platform with 500+ products across 6 pet categories, cart, favorites, and a bilingual (Arabic/English) shopping experience. nile-gardens.com
- **Al Khaleejy** – Saudi healthcare platform with online appointment booking, a pharmacy, home care services, and multiple branches across Riyadh. alkhaleejy-group.com
- **MCC** – Responsive bilingual corporate website with RTL/LTR switching, dynamic content management for products, services, projects, and blogs, a media library, job applications, newsletter, FAQ, Google Maps integration, and an interactive homepage slider. qualitycasting.net

EDUCATION

Bachelor of Computer Science 2020 – 2024
Mansoura University
